

Oil Transfer Equipment You Can Trust!

Macnaught not only provides oil transfer pumps but can provide all equipment needed for most oil transfer requirements. Macnaught provides high quality pumps, reels and guns for installations ranging from small automotive workshops right up to heavy mining and industrial applications. All Macnaught designed equipment is supported by after sales support, a product warranty and a parts guarantee.

The below table is an easy guide for selecting the right pump and associated equipment for your needs

For more information on oil transfer equipment please do not hesitate to contact your local Territory Manager or the number below.

Quick Pump Selection Guide

NOTE: This chart should only be used as a guide. Variants such as pipe size and installation configuration will affect your final selection.
