

## 12 VOLT DC OIL TRANSFER PUMP - 10LPM

Designed with versatility in mind, the Lubemate 12V DC Oil Transfer Pump effortlessly handles a range of fluids, including Diesel, Kerosene, and light oils with a viscosity of less than 500CST. Whether you're in the automotive industry, agriculture, or construction, this pump is designed with quality in mind.

Experience seamless operation as the powerful 12V DC motor ensures a steady flow, streamlining your tasks and reducing downtime.

P/N: L-OTP12V

### FEATURES & BENEFITS

- Quick cleaning and inspection of pump with its simple design.
- Sintered steel gears
- By-pass valve incorporated within pump body
- Motor is protected by IP55 rating
- Supplied with connection cables and alligator clips
- Pump is suitable to use with Diesel, Kerosene and light oils with viscosity less than 500CST
- Not suitable for Petrol

### TECHNICAL SPECIFICATIONS

- 12V DC Oil Pump
- Flow rate: 10 litres per minute
- Viscosity: up to 500Cst
- 2 Metre suction height
- 3/4" BSP inlet/outlet
- IP55 protection class motor
- 30min duty cycle

### PACKAGE INCLUDE

- Electric Oil Pump
- Instruction Manual
