

ADBLUE/DEF STAINLESS STEEL NOZZLE L-SSANM

The new heavy duty AdBlue/DEF Automatic Nozzle from Lubemate has been designed for liquid transfer of AdBlue and DEF liquids up to 60LPM. The premium nozzle comes standard with a stainless steel auto shut-off nozzle to prevent overfilling as well as a magnetic tank adaptor to ensure you get the correct fit for your AdBlue applications. Comes complete with stainless steel heavy duty swivel, the Lubemate AdBlue/DEF Automatic Nozzle is the most versatile piece of equipment for your AdBlue & DEF delivery.

Magnetic Tank Adaptor

To fit most common application inlets to prevent misfilling

Stainless Steel Nozzle with Auto shut-off

For heavy duty applications to prevent overfilling

Detachable Stainless Steel Swivel

3/4" swivel hose tail inlet

3 position latch mechanism

Allows flow control in 3 positions

UREA/DEF MAGNETIC TANK ADAPTOR

L-MTA

- Mis-filling prevention device for AdBlue/DEF

SS SWIVEL FOR DEF/AUTO NOZZLE - 3/4"

L-SS19

- Swivel (304) for DEF/AdBlue Automatic Nozzle (L-SSANM)
- Stainless Steel (304)
- 3/4" swivel hose tail
- Suits 3/4" hose

TECHNICAL SPECIFICATIONS

- 3/4" swivel hose tail inlet
- Flow rate: 60L/min max
- Stainless steel nozzle (304)
- 19mm o.d. spout
- 304 Stainless Steel construction

RECOMMENDED USE WITH

- Suitable for UREA/AdBlue/DEF fluids

PRODUCT INCLUSIONS

- Stainless steel nozzle, L-MTA magnetic tank adaptor and L-SS19 3/4" swivel hose tail
